10月 15, 2024

India

摘要

Our key team priority is a global service transformation program to transform how we deliver services e.g. adopting automation, shift left strategies. We are also transforming how we store, backup, archive and retain data across the Salesforce platform to drive operational performance and cost efficiencies.

About the Role

Your responsibilities include but not limited to

- Responsible for holistic IT Service Management including all ITIL Processes, Service Operations as well as Operational Quality Management oversight along with continual service improvement and supplier operational governance. -
- Govern the service operations, service transition, quality, compliance, and audit readiness of services delivered.

- Manage a service operation with standardized services, processes, and tools to provide efficient, high quality services.
- Provide highest business value through effective management of IT resources (people, financial resources, and services) related to the function.
- Meet customer and internal IT service levels and proactively drive continuous service improvement collaboration with the Service excellence team of the Function.
- Contribute to enabling operational excellence and continuous improvement in the Service quality across TT.
- Own and drive the delivery of the service ensuring delivery to SLA and Service continuity meeting the consumer needs.

Minimum Requirements

- Bachelor ' s degree in IT or equivalent experience
- Demonstrable experience in Salesforce > 9 years of relevant professional ITIL experience and
- Consistent track record of broad industry experience and good understanding of complex enterprise IT landscapes and relationships
Consistent track record of broad industry experience and good understanding of complex enterprise IT landscapes and relationships
- Experience in general management in an international environment. Excellent knowledge of business processes, experience in regulated system environment and ability to “speak the business language” when talking about IT subjects
- Experience in advising peers and senior customers on complex issues and provide complex, contextual guidance to influence actions of internal and/or external partners
- Experience in handling internal and external experts in different locations and time zones
