摘要

As an Analytics Project Manager, you will be responsible for overseeing and driving the successful execution of web analytics projects from start to finish. You will work closely with cross-functional teams, such as platform team, AOR ' s ,Media team, and business stakeholders, to ensure the timely delivery of high-quality analytics solutions for their sites. The ideal candidate should have a strong background in project management, web analytics, and possess excellent communication skills.

About the Role

Key Responsibilities:

- Manage end-to-end analytics projects, including requirements gathering, project planning, execution, monitoring, and reporting.

- Collaborate with stakeholders to define project scope, objectives, deliverables, and resource requirements, ensuring alignment with business goals.
- Develop and maintain project timelines, milestones, and budgets, proactively identifying and addressing potential risks and issues that may impact project delivery.
- Coordinate with cross-functional teams to ensure smooth coordination and communication throughout the project lifecycle.
- Lead project meetings and effectively communicate project progress, updates, and risks to key stakeholders and management.
- Drive the creation and documentation of project requirements, including business and functional requirements, data requirements, and technical specifications.
- Conduct regular project status updates, providing detailed reports on project metrics, analytics, and key performance indicators (KPIs) to track project success.
- Manage the implementation and rollout of web analytics solutions, working closely with IT Platform team to ensure optimal system performance and integration.
- Ensure adherence to project management best practices, industry standards, and regulatory requirements.
- Stay updated with emerging trends and tools in analytics and project management, recommending and implementing process improvements to enhance project efficiency and effectiveness.

Essential Requirements

- Proven experience (minimum 10 years) as a Project Manager, preferably in the google analytics.
- Strong knowledge of analytics concepts, methodologies, and tools.
- Proficient in project management methodologies, such as Scrum, Agile or Waterfall, and utilizing project management tools.
- Demonstrated ability to effectively prioritize and manage multiple projects simultaneously, while meeting deadlines.
- Experience in working with various stakeholders, managing expectations, and delivery
- Proficient in using project management software and analytics tools (e.g., JIRA).

Desired Requirements

Project Management Professional (PMP) or other relevant
