REQ-10040952

3月 07, 2025

United Kingdom

### 摘要

LOCATION: London, UK or Dublin, Rep of Ireland, Barcelona, Spain  
ROLE TYPE: Hybrid Working

The Associate Director, Clinical QA will provide Quality oversight for the end-to-end clinical process for the clinical trials under responsibility to ensure compliance with the Health Authorities requirements, the internal standards and a full adherence to patients' safety, rights and well-being.

### About the Role

Key Responsibilities:

- Proactively provide QA leadership to the business strategy for assigned programs/trials by ensuring considerable organization awareness (e.g. Interrelationship of departments and business priorities),

- Drive implementation of quality strategy within Global Clinical Team (GCT )/ Clinical Trial Team (CTT) under responsibility
- Regularly monitor the implementation of the annual Quality Plan pertaining to the assigned programs/studies
- Ensure adequate oversight of proactive quality risk management process in the overseen areas including quality risk assessments and submission/inspection readiness activities and ensure that Clinical Trial Process (CTP) are in control
- Provide robust and clear quality oversight in the following areas of clinical development:
  - Support/collaborate with key stakeholders (e.g., Country Development Quality (CDQ), Development Units (DUs), GCT and/or CTT members) to ensure that risks are detected and remediated.
  - Support core governance for quality incident management for critical and major deviations pertinent to the programs being assigned and ensure timely escalation when required.
  - Provide Good Clinical Practice (GCP) guidance to day-to-day questions arising from Clinical trials deliverables.
  - Collaborate with Country Development QA and External Service Providers (ESP) QA to drive initiatives relevant to internal monitoring and outsourced activities Quality oversight.
  - Support inspections preparation and facilitation in collaboration with other QA groups within Research & Development Quality (RDQ).
  - Support audits and inspections follow-up activities including Corrective & preventative Actions (CAPA) preparation.
- Actively leverage audit/inspection outcomes/trends to sustain improvement in clinical trials conduct.
- Active participation in continuous improvement initiatives (including Work streams) and ensure that areas identified as weaknesses are properly being addressed and executed for sustainability
- Be QA point of contact for the defined trials and attend the meetings and ensure quality is embedded in the decision taking processes.

#### Essential Requirements:

- Bachelor ' s degree in life science or healthcare field required. Advanced degree or equivalent education/degree in life sciences/healthcare preferred (PhD/MD/ PharmD/ Masters).
- 7 years of involvement in regulated activities (GCP/ Pharmacovigilance (PV)), clinical development and/or QA positions.
- Broad understanding of global expectations of Health Authorities in the area of Clinical Development and profound understanding of the science of product development.
- Ability to work independently and in a global/matrix environment.
- 3 or more years ' experience in managing projects.
- Strong skills in GCP, quality and/or clinical development
