摘要

The Medical Affairs Director develops and implements strategic and operational TAs Global Medical Affairs programs. The new incumbent will focus on innovative evidence, launch readiness, and post-market solutions. At the core of the role is medical affairs planning and execution of the medical/scientific engagement strategy. This means, addressing and delivering strategic pre-launch and launch medical activities needs for patient, clinical, access and value to health care systems. The individual will provide expertise in the development and execution of the overarching strategies, providing inputs during design and along the end-to-end execution of programs. This is an amazing opportunity where development and execution of the Integrated Evidence Plan (IEP) will maximize the value proposition for the prioritized launch portfolio and impact of our medicines.

This role is based in the UK / London or Spain / Barcelona in a hybrid working model

About the Role

Major accountabilities:

- Co-develop plans for evidence generation, MSL / Field Medical Affairs strategy, medical education programs, scientific publication planning and Medical Expert network development with TAs.
- Lead development and execution of medical affairs strategy for TA/Asset priority programs including transformative tactics such as: research/population health, innovative partnerships and integrated evidence plans
- Co-own the development and implementation of innovative education and scientific communication plans for external stakeholders
- Financial tracking to ensure timely and cost-effective development & execution of medical activities
- Prepare SRC submissions for TA assets within remit
- Partner with Development, S&G, US and International cross-functions to shape portfolio early and diversify evidence to achieve broad access at launch and to enhance impact on clinical practice for priority programs

Education and Experience:

- MD, Neurologist (Preferred) or PhD/PharmD in Neuroscience/ Health Sciences. Specialist Degree or specialist qualification in Gene therapy related to discipline for which is responsible is an advantage
- 5+ years in Pharmaceutical Industry experience in Medical Affairs and/or Clinical Development. Credibility as peer expert with external stakeholders.
- Critical thinker and with ability to navigate uncertainty without major supervision
- Fluent oral and written English; Other relevant languages are an advantage.
- Strategic mindset and able to establish credibility and influence across a range of diverse stakeholders in a matrix organization to drive change
- Ability to truly collaborate across functions and markets: serve-partner-co-create
