摘要

Leitung aller BPA-Aktivitäten innerhalb eines Landes, einer Einheit oder Funktion, einer Region oder weltweit (je nach Größe) und Bereitstellung aufschlussreicher und wertschöpfender Analysen und Entscheidungshilfen für die Unternehmensführung.

About the Role

- Co-develops vision and supports prioritization of new AI-/decision-making tools in close alignment with the BPA/Finance functions of different business units
- Owns selected AI/ML products and heads their design, development and implementation by orchestrating the right resources across data science and visualization experts. Ensures successful roll-out, adoption and ongoing operations.
- Connects newly designed solutions and processes with operational links and leverages her/his operations acumen to pragmatically implement in the Novartis environment
- Identifies areas of inefficiencies in the application of AI/ML/digital and implements

- improvements towards a highly efficient, “industrialized” approach (“technology at scale”)
- Liaises with other digital/AI initiatives (e.g. commercial, supply chain, pricing and market access, treasury, investor relations,...), identifies potential overlaps/ synergies, and co-creates holistic digitalization roadmap
 - Co-shapes future organization of BPA/ Finance function to realize systemic evolution
 - Works closely with broader Digital Finance and Data & IT team to define data requirements for next generation AI tools to further improve decision-making and efficiencies
 - Identifies proactively industry benchmarks that trigger/sparkle change initiatives. Proposes innovative approaches to operations and owns their realization from presentation to top management to execution and delivery of results
 - Offers fresh perspectives and ideas from different industries to introduce and develop new ways of doing things, especially in the space of digital transformation
 - Leads select, new initiatives/MVPs with cross-functional partners to proof business value with objective to scale up globally

Minimum requirements:

- University degree in Finance, Economics (or similar), MBA or equivalent preferred
- English (fluent, written and spoken)
- 5-8 years of experience in roles related to consulting, advisory or business process reengineering in a multinational company or top tier consulting firm
- Knowledge of business finance processes (esp. planning & forecasting), performance management, business analytics
- Strong, proven analytical and quantitative skills (coding/programming skills are not required)
- Strong project management skills; project management certification (PMP, etc.) is an asset
- Excellent communication and stakeholder management skills applied in complex environments (e.g. matrix/divisional organizations)
- Innovative, digital, and agile mindset
