Spain

摘要

The purpose of the role is to perform SAS Administrator duties for SAS instances used by the Advanced Quantitative Sciences (AQS) business domain and assist with SAS implementation in the SCAPE Statistical Compute Environment (SCE). This role will configure and optimize SAS Analytics Pro (APro) in the SCAPE SCE, ensuring that business requirements and outcomes are met.

About the Role

Your Responsibilities include:

- Administration of SAS in the SCAPE SCE, including administration in Development, QA, and Production instances of the SCE as the SCAPE project develops, validates, deploys, and operates the new AQS SCE.
- Responsible for administration of SAS in a containerized / cloud environment, to ensure reliable operation of SAS on a day-to-day basis.

- Take accountability for delivery of specific SAS components / use cases for the SCE.
- Document SAS settings and ensure peer review and sign off.
- Ensure the overall user experience is taken into account when administering SAS implementations.
- Take accountability to ensure adherence with Security and Compliance policies and procedures.
- Coordinate with all other project workstreams on the SCAPE project to deliver a quality SCE on time and within budget.

Requirements:

- Bachelor ' s degree in Computer Science, Computer Engineering or related technical discipline or equivalent experience demonstrated.
- 7 years ' experience working in an IT environment with SAS admin experience quantitative science data platforms with a track record of delivering solutions at scale.
- Advanced knowledge of Lean/ 6 Sigma, Design Thinking, Agile methodology
- Experience leading indirect reports in a matrix environment, including design thinking.
- Leveraging digital technology and effective change management to deliver value.
- Experience in IT Enterprise & Business Architecture, IT Systems Design, IT Systems Integration, User Experience Design, Design Thinking, Analyzing stakeholder requirements, and Knowledge of IT Applications & tools.
- Experience with SAS products / SAS Studio in both cloud and native environments.
- Experience with SAS product administration, product upgrades, issue troubleshooting and resolution, and integration of other tools with SAS
- Proficiency in English (written oral).

Desirable:

- Experience with SAS running in Domino is a plus
