China

摘要

The RLT MLL serves as the point of contact for all radioligand technical knowledge, education, and support to both external customers and internal cross account partners, and remove clinical & non-clinical barriers for RLT platform.

About the Role

Major accountabilities:

- Provide account education for on-site preparation and infusion processes for RLT/RLI products, and education for appropriate radiopharmaceutical licensing and licencing logistics.
- Identify, establish and maintain collaborative relationships with national opinion leaders, investigators, institutions and professional societies strategic to appropriate product development and use.
- Profile and mapping external accounts with focus on nuclear medicine and radiation

oncology, urology and other clinic departments.

- Partner and support internal partners with GDD, TRD, NPP and training for educational materials and appropriate educational presentations to external partners.
- Lead RLT regional critical projects, launch preparation activities, liaising with society associations in line with the medical strategy, and remove clinical & non-clinical barriers.
- Support country medical affairs strategy in line with the global strategy, country insights and secure regional implementation of planned Medical Affairs activities within the designated therapy area(s).

Key performance indicators:

- Works within Ethics and Compliance policies
- Achievement of annual targets for medical activities

Minimum Requirements:

Work Experience:

- Masters' degree or above, MD, PhD of urology is preferred
- More than 3 years of MSL experience, experience of TA oncology or urology in MNC is preferred

Skills:

- Good communication skill
- Medical Education and Scientific Engagement
- New launch preparation and launch experience

Languages :

- English.
