摘要

At Advanced Accelerator Applications, a Novartis company, we are committed to leading innovation in nuclear medicine and delivering the next generation of targeted radioligand therapy (RLT) to cancer patients. We are looking for an experienced pharmaceutical manufacturing leader to help us reach our ambitious goals.

As a Production Manager you will be accountable for leading and coordinating all daily production manufacturing activities and operations with a key focus on safety, quality, productivity, and reliability. You will be a vital member of the team and oversee direct and indirect reports by making the required resource assessments and adjusting resourcing as needed to meet the business demand.

Please note: Two positions are available. This is an evening shift role. One position will work Sunday to Wednesday and the other Wednesday to Saturday.

About the Role

Key responsibilities

- Responsible for the daily operations and efficient utilization of resources to meet processing demands
- Ensure the products are produced, inspected, stored and released in accordance with approved procedures.
- Support shop floor trouble shooting and problem solving as needed
- Responsible for authoring, reviewing and/or approving GMP documents including but not limited to SOPs, Batch Records, Labels, Protocols, Reports, Validation documents.
- Ensure Good Documentation Practice are followed on the shop floor.
- Ensure production team receives complete cGMP training and are qualified to perform the required operations.
- Author and support compliance activities including deviations, CAPAs, Investigation and OOS and OOT. Audit and review emergency paperwork and processes to ensure compliance.
- Interview and hire production staff in conjunction with Production Management.
- Implement cost control programs or procedures
- Monitor and regulate staffing needs to ensure optimum staffing levels are supporting business demand.

Essential Requirements:

- Bachelor ' s degree in education, science or related field or equivalent experience plus 4 years ' relevant experience with aseptic pharmaceutical manufacturing including prior leadership experience
- Knowledge and understanding of cGMP requirements and the application of continuous improvement in a regulated environment
- Demonstrated history of working collaboratively across functions and sites.
- Strong leadership, communication and analytical/problem solving skills.
- Change management, adaptability, and ability to work under pressure
- 5-10% travel

Desirable Requirements:

- Prior experience or training in radiochemistry or radio pharmacy
