摘要

Location: Barcelona (Hybrid & Office)

Novartis is unable to offer relocation support for this role: please only apply if this location is accessible for you.

500! This is the number of Finance Digital challenges looking for a solution. We count on you to come up with best IT solutions and work with a high dedicated Finance Digital Product Team.

The role purpose is for Product delivery and/or operations in the given Finance business capability. Partner with Business Stakeholders and DDIT Business Partners for demand analysis, solution proposal/evaluation and project delivery.

About the Role

Your responsibilities include, but are not limited to:

- Act as the primary connection between Finance end to end Solution delivery and the Digital business for a given capability
- Analyze and refine requirements for delivering the necessary technology service to business. Act as Incident Manager, ensuring SLA is met and working to reduce the number of incident
- Solution Design of Finance system solutions in alignment with design and architectural standards, while meeting quality, performance, security and business requirements. Manage project teams in different locations.
- Own and Drive the end to end Technical Product Delivery. Ensure close coordination and seamless flow of communication across layers i.e DB, API and frontend.
- Maintain close communication with business to make sure any scheduled or ad hoc maintenance/ infrastructure works are planned properly ensuring minimal disruption to business.
- Ensure IT services are aligned with business strategy, business objectives, business requirements, standards and regulations
- Responsible for architecting, designing, implementing, deploying and supporting Snowflake, PWA ,API, mobile & web solutions to achieve defined business goals.
- Coordinate with scrum master and dev team leads to ensure availability of the right tools, required access etc for the development team members.
- Provide IT consulting to the capability stakeholders, educate them on IT processes and methodologies and drive adoption of global solutions
- Initiate and drive projects from conception to completion with minimal guidance. Establishes scalable, efficient, automated solutions for large scale data analyses, model development, model validation and model implementation.
- Communicate complex data or algorithms into simple conclusions that will empower leadership to drive action based on the insights you derive.

Commitment to Diversity & Inclusion:

We are committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.

What you ' ll bring to the role:

- University working and thinking level, degree in technical computer science or information security area or comparable education/experience
- 10+ years of relevant professional IT experience in the related functional area
- Experience in Mobile/Web App architecture and PWA/hybrid strategies
- Knowledge of various back-end development frameworks like. Net Core.
- Experience with database Devops automation through DevOps tooling.
- Experience in designing, developing and deploying reliable and scalable Microservices for wide and complex domains
- Knowledge on technical and operational expertise with IT technologies like: iOS, Snowflake, DB design / modelling, Databricks Airflow or equivalent data orchestration tool Bitbucket or equivalent source code repository tool AWS foundational .
- Pluses: Experience with software development in any of the following frameworks: .NET Framework or .NET Core, NodeJS, Java

Why Novartis?

769 million lives were touched by Novartis medicines in 2022, and while we're proud of this, we know there is so much more we could do to help improve and extend people's lives.

We believe new insights, perspectives and ground-breaking solutions can be found at the intersection of medical science and digital innovation. That a diverse, equitable and inclusive environment inspires new ways of working.

We believe our potential can thrive and grow in an unbossed culture underpinned by integrity, curiosity and flexibility. And we can reinvent what's possible, when we collaborate with courage to aggressively and ambitiously tackle the world's toughest medical challenges. Because the greatest risk in life, is the risk of never trying!

Imagine what you could do here at Novartis!

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you.
